

## MAINTENANCE

1. Store this product out of reach of children and pets.
2. Keep the product in a dry environment. Avoid placing it in high temperatures or leaving it in a car exposed to sunlight.
3. Do not overcharge or fully discharge the battery, as this may damage the battery cells.
4. Regularly clean the attachments, mini blower, and suction port.
5. Avoid using nails or sharp objects to press or rub the suction and blowing ports to prevent product damage.
6. Do not use alcohol, nail polish remover, or detergents to clean the product, as this may cause malfunctions, breakage, or fading.

## ATTENTION

To minimize risks such as malfunction, electric shock, injury, fire, death, or property damage, please follow these safety precautions:

### 1. CHARGING CABLE

1. Do not use the charging cable if it is damaged, as it may cause burns, electric shock, or fire due to short circuits.
2. Avoid plugging or unplugging the charging cable with wet hands to prevent electric shock or injury.
3. Do not damage, modify, bend, pull, twist, or place heavy objects on the charging cable, as this may cause electric shock or fire.
4. Replace the charging cable immediately if it is damaged to avoid danger.

## 2. USAGE AND STORAGE

1. Do not block or insert foreign objects into the suction or blowing ports while the product is in use, as this may cause damage.
2. Do not immerse the product in water or use it in damp environments. Keep it dry.
3. Avoid using the product with wet hands.
4. Keep the product away from petroleum gas, volatile agents, paint thinners, and other flammable materials to avoid explosions or fires caused by short circuits.
5. Do not leave the product powered on unattended, as it may cause a fire.
6. Avoid storing the product in highly humid areas.
7. Keep the product out of reach of children and infants.
8. Do not use the product near bathtubs, showers, washbasins, or other water sources.

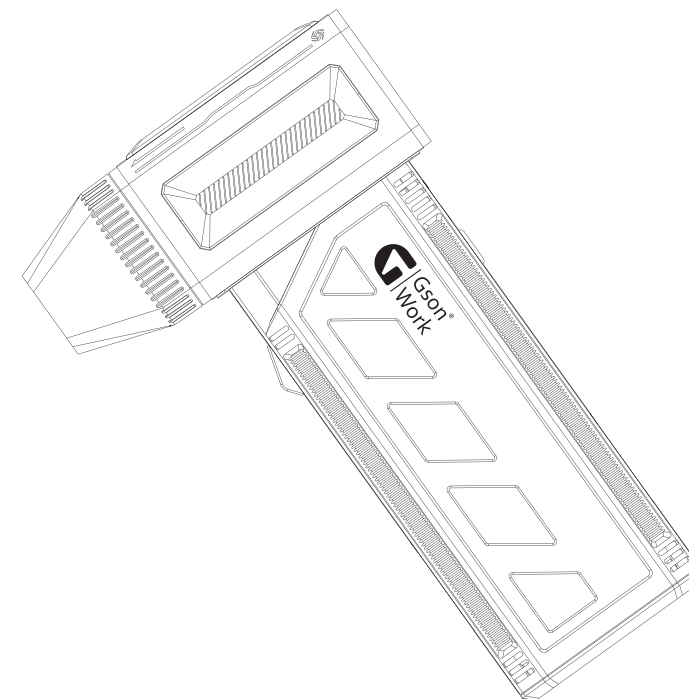

## 3. EXCEPTIONS OR FAILURES

If you notice abnormalities such as no airflow, frequent stops, internal redness, or smoke, stop using the product immediately. Continued use in such conditions may cause injury or fire due to a short circuit.

**Reminder:** Product illustrations, accessories, and other items shown in the manual are for reference only. Slight differences may exist between the schematic diagram and the actual product due to updates or upgrades. Please refer to the actual product for accuracy.

## Mini Power Blower G10

### User Manual

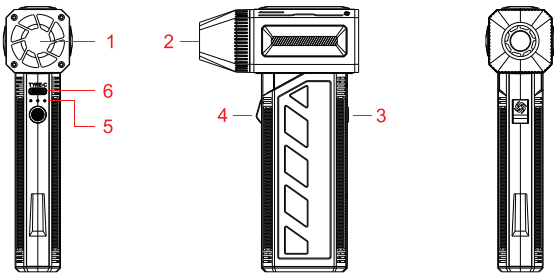

PREFACE

Thank you for choosing this product. This manual contains important information regarding your safety, rights, and responsibilities. Please read it carefully and follow the instructions for proper setup and use. Failure to do so may result in harm to you, others, or the product itself.

Disclaimer:

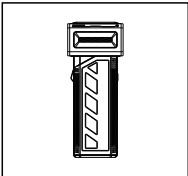

- The manufacturer is not liable for damages caused by improper use or failure to follow the instructions.
- The company assumes no responsibility for products obtained from unauthorized channels or for unauthorized uses.

PRODUCT OVERVIEW

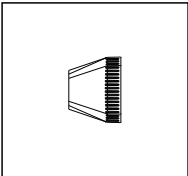

- 1. Air Inlet
- 2. Air Outlet
- 3. Power Button (On/Off and Speed Switch)
- 4. Start Button
- 5. Speed/Battery Indicator
- 6. Charging Port

Charging Cable

INSTRUCTIONS

1. POWER ON/OFF

Long-press the power button to turn the device on or off. After powering on, the product enters standby mode.

2. START BLOWING

**Manual Mode:** Hold the start button to activate airflow. Release the button to stop.

**Automatic Mode:** Press once to start (first and second speeds only). Press again to stop.

3. GEAR SHIFT

After turning on, click the power button to cycle through speed settings:

- First Gear: Gentle Wind
- Second Gear: Strong Wind
- Third Gear: Extra Strong Wind

4. CHARGING

The product supports fast charging but should not be used while charging.

5. BATTERY INDICATOR

**Charging:** Lights flash sequentially to indicate battery level.

**Full Charge:** All three indicator lights remain on.

**Low Battery:** Lights flash to indicate remaining charge:

- 3 lights: 100%
- 2 lights: 50%
- 1 light: 25%

6. INTELLIGENT PROTECTION FUNCTION

The product automatically shuts down after 3 minutes of inactivity in standby mode.

PRODUCT PARAMETERS

Product Name:	Mini Power Blower G10
Art no:	510410
Battery Capacity:	2500mAh
Working Voltage:	7.4V
Runtime:	Gear 1: 4 h, Gear 2: 36 min, Gear 3: 13 min
Size:	137 × 83.5 × 36.3 mm
Weight:	218 g

Directive
2014/30/EU
Harmonized standard
